| Statement of the Determination or Decision         | <i>(What is the actual determination or decision that has been made, i.e. Your application for the xxx program has been denied because the acreage offered does not meet the eligibility criteria of xxxxx.)</i> |
| Regulatory Basis for the Determination or Decision | <i>(Cite the appropriate statute, regulation, or policy document that supports the previously mentioned determination)</i>   |
| Reason for the Determination or Decision           | <i>(Give a statement of the reasons, based on the above listed citations as to why the decision was made)</i>  |
| Issues Surrounding the Determination or Decision   | <i>(What are the issues or circumstances surrounding the decision, i.e. There was no hydrologic manipulation to restore, therefore, the land is ineligible.)</i>   |
| Evidence Considered                                | <i>(What evidence, issues, or other items were taken into consideration in making the determination? Was the determination made in the field, how was it made, what was considered?)</i>                         |
| Equitable Considerations                           | <i>(What other considerations were made, if any, i.e. We included, as eligible acreage, those upland acreages that, if included in the contract, would protect the restored wetland area.)</i>                   |
