

“CREATING A WELCOMING WORKPLACE”

LGBT Pride Month June 2012

A welcoming workplace is inclusive.
An inclusive workplace is diverse.
Diversity is empowering.
Empowerment leads us forward.

Excluding someone because they are different is not only illegal but foolish and a bad business decision.

We want your mind, your ideas, your passion. In return, you will be welcomed, valued and respected.

We are creating tomorrow's workplace - a science-based, technical service agency helping private landowners conserve natural resources in efficient, smart and sustainable ways.

The USDA is an equal opportunity provider and employer.
