Instructions for use
Construction Specifications 8—Mobilization and Demobilization

1. Applicability
Construction Specification 8 is applicable to any construction contract that includes a bid item for general mobilization and demobilization of the contractor's personnel and equipment. It is not intended to cover mobilization and demobilization of special equipment for specific items of work, such as grouting equipment, pile driving equipment, or rock drilling equipment, for which payment for mobilization and demobilization is included and provided by specific bid items elsewhere in the contract.

2. Material specification
No material specifications complement Construction Specification 8.

3. Included items
Items to be included in contract specifications and drawings follow:

a. Special requirements pertaining to mobilization and demobilization, if any.

b. Any particular work for which payment will or will not be made under the mobilization and demobilization item if not adequately described by the specification.

c. When more sites than one (work limits not continuous) are included in the contract, include in section 4 of this specification if mobilization of contractor's equipment and personnel between sites is included or not included in Section 3, Payment.

4. Items of work and construction details
Starting at the top of page 8–1, prepare and outline job specific "Items of Work and Construction Details" (IWCD) in accordance with these instructions.
