BUSINESS CENTER
WASHINGTON, DC 20250

FPAC NOTICE	NUMBER: FPAC-N 5400-006
SUBJECT: Farm Production and Conservation (FPAC) Fiscal Year 2019 Vehicle Replacements	DATE: July 24, 2019
APPROVING OFFICIAL: Thomas W. Christensen, Deputy Chief Operating Officer, Business Services	EXPIRATION DATE: September 30, 2019

1. PURPOSE

   This notice provides guidance on the process and timeline for replacing owned vehicles identified as eligible for replacement.

2. BACKGROUND

   a. The FPAC Business Center Management Services Division (MSD) Personal Property Management Branch (PPMB) is charged with managing the overall operations and performance of the FPAC fleet. One component of optimizing the performance of the fleet is to ensure that the vehicle inventory is maintained and operating efficiently on a proper replacement cycle. Annually, the PPMB will identify vehicles that are suitable candidates for replacement, and if replaced, will offer a high return on investment and positive impact upon the entire FPAC fleet inventory.

   b. The Risk Management Agency (RMA) fleet is made up of all leased vehicles, and the Farm Service Agency (FSA) fleet is almost entirely leased. Any FSA owned vehicles will most likely be excessed at the end of their lifecycle per FSA. Accordingly, the procedure in this notice applies to the Natural Resources Conservation Service (NRCS) but does not apply to FSA and RMA in FY 2019, because the NRCS vehicles are predominantly owned.

3. PROCEDURES, PROCEEDS-FUNDED VEHICLE REPLACEMENTS

   a. Attachment A provides the vehicle quantity that each State has been allocated for replacement through vehicle proceeds funding. State Offices are asked to coordinate with their FPAC Fleet Specialist to identify which vehicles should be replaced from the recommended replacements list (Attachment B). The Fleet Specialist will also guide the State Office with determining the most efficient and cost-effective replacement vehicles that will be the right match to mission requirements. See Attachment D to find the name of the Fleet Specialist assigned to your State.

b. The Fleet Specialist will complete as much of the FPAC Vehicle Ordering Form (Attachment C) as possible for each vehicle replacement. Fleet Specialists will forward the forms to State Offices to fill out any required justification statements and to obtain the required signatures.

c. The Vehicle Allocation Methodology (VAM) recommended vehicle-type (provided on Attachment B) will be selected when completing the ordering form, as will each of the following when available:

(1) An Alternative Fuel Vehicle (AFV) (if available for the vehicle-type being requested and no State legal restriction exists). Examples that qualify as AFVs include E85 Flex-fuel, Hybrid Electric, and Plug-in Hybrid Electric vehicles. Selecting an AFV will allow FPAC to remain compliant with the Energy Policy Act (**https://www.epa.gov/laws-regulations/summary-energy-policy-act**).

(2) A Low Greenhouse Gas (LGHG) vehicle, if possible. If there is no LGHG vehicle that can meet mission requirements, justification explaining why must be provided through a Functional Needs Exemption (FNE) completed on Attachment C.

Requests that differ from the VAM recommendation must include a strong justification statement on the ordering form.

d. Because of the availability of proceeds funding from previous sales of disposed vehicles, States will not use their own funding allocations in FY 2019 for this purpose. The Fleet Specialist will draft the AD-700 form and route for funding certification. The Fleet Specialist will also request the creation of the appropriate financial obligations.

4. PROCEDURES, STATE-FUNDED VEHICLES

a. States may replace additional vehicles that meet replacement standards/conditions, above the number funded by vehicle sales proceeds, out of their own budgets. All of the above procedures still apply, with the following exception: for State-funded vehicles, the Fleet Specialist will prepare the AD-700 and route the AD-700 to the State for funding certification. Once the State sends the funding certification back to the Fleet Specialist, the Fleet Specialist will request that the financial obligation be created for each vehicle funded on the AD-700.

b. When requesting to replace vehicles, States are not constrained to replace only vehicles listed on Attachment B. However, the PPMB recommends vehicles on Attachment B as prime candidates for replacement, due to their age and mileage. States must not replace any vehicle that does not meet the minimum age or mileage criteria found in the Federal Management Regulation (FMR) replacement guidelines at §102-34.270.

5. TOTAL COST OF OWNERSHIP

Per Agriculture Property Management Regulation (AGPMR) Advisory 17-01, FPAC is required to choose the acquisition method that will result in the lowest expected total cost of ownership over the life of the vehicle. The FPAC Fleet Manager will make this determination for each vehicle based upon the USDA Lifecycle Model tool. This tool determines whether a vehicle should be leased or owned based upon expected annual mileage and a number of other factors. The Fleet Manager will use the information collected on Attachment C to make the determination. If the Fleet Manager determines that a lease is the least expensive acquisition method, the State has the option of either leasing the vehicle or providing justification to support a purchase instead of a lease. Any such justification must clearly and convincingly explain why a lease would not meet mission requirements.

6. DEADLINE AND VEHICLE ORDER FORM APPROVAL

a. All signed Vehicle Ordering Forms (Attachment C) must be provided to the Fleet Specialist no later than **August 19, 2019**.

b. Review of the forms will be conducted through a specific process, which will include the FPAC Fleet Manager and the FPAC MSD Director. MSD will route forms through the NRCS Regional Conservationists in situations in which the vehicle type or options requested require further review and approval.

7. REPLACEMENT VEHICLE ARRIVAL

Replacement vehicles are expected to begin arriving in the fall of 2019. FPAC Fleet Specialists will be sure to provide status updates relating to vehicle delivery.

8. CONTACT

Questions about this notice should be directed to one of the following:

a. the FPAC Fleet Specialist assigned to service your State or Center (see Attachment D)

b. Adam Stiegelmeier, Fleet Support Section Chief, by telephone at 515-323-2204 or email to **adam.stiegelmeier@usda.gov**

c. Scott Berklacy, FPAC Fleet Manager, by telephone at 202-619-8519 or email to **scott.berklacy@usda.gov**.

Attachment C

FPAC Vehicle Ordering Form - FY 2019

Requester

Agency: _____

State, Center, or Soil Survey Region (SSR): _____

State, Center, or SSR POC: _____

POC Information: Phone: _____ Email: _____

Replaced Vehicle Information

Tag #: _____

VIN: _____

Vehicle Description: _____

Make: _____

Model: _____

Year: _____

Mileage: _____

FY18 Total Miles Traveled: _____

Lease vs. Own Analysis

This section is for FPAC Fleet Management use only. The State-assigned Fleet Specialist will perform a lease versus buy analysis before the SED, STC, or Center Director has signed to determine the least costly method of procurement.

Lease vs. Own Determination: ☐ Lease ☐ Purchase

Total Cost To Purchase: _____
Total Annual Cost To Lease: _____

Comments:
_____
_____
_____

New Vehicle Information

VAM Recommended Vehicle Type: _____

New Vehicle SIN: _____

New Vehicle Description: _____

Low Greenhouse Gas Vehicle? * ☐ Yes ☐ No

Estimated Annual Total Miles Traveled: _____

VAM Recommendation Followed? ** ☐ Yes ☐ No

Vehicle Options (Include Codes & Description): ***
_____
_____
_____

Will National Proceeds Account be used for this vehicle? ☐ Yes ☐ No

Vehicle Garage Address: _____
_____
_____

Delivery City: _____
Note: The delivery city must be chosen from the locations GSA has available. If your preferred delivery city is not on GSA's list, the State-assigned Fleet Specialist will assist you with determining the best location.

* If not a Low Greenhouse Gas (LGHG) vehicle, then a Functional Needs Exemption must be certified within the Justification Statements section on this form.
** If the VAM Recommended Vehicle Type was not selected, justification must be supplied within the Justification Statements section on this form.

FPAC Vehicle Ordering Form - FY 2019

*** If any of the below Vehicle Options are selected, justification must be provided within the Justification Statements section on this form.
Vehicle Options requiring justification: IE1, IE2, or IE3 - Increased Power Engine; YD - Diesel Engine; RKS – Remote Keyless Start; OS - Onstar; and DTG - Dark Tinted Glass.

Justification Statements

Justification Statement For Vehicle Replacement

How important is this vehicle to accomplishing the mission?
Describe the critical need.
The statement should clearly identify the mission requirements.
_____
_____
_____
_____
_____
_____

Functional Needs Exemption (If required. Skip section if "Yes" is selected for "Low Greenhouse Gas?" above.)

A Low Greenhouse Gas (LGHG) vehicle cannot be acquired because (check all that apply):
_____ No LGHG vehicle meets the towing requirement
_____ No LGHG vehicle meets the requirement to drive in mud, ice, snow, or other off-road condition
_____ No LGHG vehicle meets the cargo weight or dimension carrying requirement
_____ No LGHG vehicle meets the passenger carrying requirement
_____ Other reason (if checking this box, please explain in the comments section below)

Please state any additional comments concerning the Functional Needs Exemption request here:
_____
_____
_____

Justification For Other Than VAM Recommended Vehicle **(**If required. Skip if "Yes" was selected for "VAM Recommendation Followed?" above.)

State the reason(s) for not selecting the VAM recommended vehicle type:
_____
_____
_____
