Please check all that apply:

☐ This renewal offer includes all the land in my existing CSP contract identified above.

☐ This renewal offer includes newly acquired or newly eligible land that is part of my agricultural or nonindustrial private forest land (NIPF) operation not currently enrolled in a CSP contract. Note: Public land associated with other eligible land uses, which is under the effective control of the applicant, and which is a working component of the producer's agricultural or NIPF operation, may now be considered eligible for enrollment in CSP.

The following documents must be included as part of a complete renewal application:

- Complete, sign, and date Form NRCS-CPA-1200, "Conservation Program Application."
- Provide a map that shows the boundaries of your entire agricultural or NIPF operation. Examples of acceptable maps include FSA maps, aerial photographs, an overlay delineating enrolled eligible land, or other reliable documents, such as survey maps, tax parcel data, and official land use maps for NIPF.
- Identify the eligible land uses (i.e., cropland, rangeland, pastureland, NIPF, associated agricultural land, and farmstead) and associated acreage amounts.
- Identify any ineligible land (e.g., land enrolled in CRP, land with WRP or ACEP-WRE easements, land enrolled in another CSP contract including a CSP-GCI contract, etc.).

NRCS will use the information provided on this form for the CSP assessment and ranking process for renewal contracts. By submitting this renewal offer, you acknowledge that this worksheet supplements Form NRCS-CPA-1200, and that making an application does not guarantee that NRCS will offer you a renewal contract. Contact your local NRCS office for additional information.
