

OUR COMMITMENT TO EQUITY

“

NRCS advances Equity by sustaining fairness in the way we deliver our programs, services, and technical assistance, within agency policies and practices.

— NRCS Chief Terry J. Cosby

”

The focused equity component supports new and existing community based organizations, historically underserved, and partners that have shown to be instrumental in the development of communities on behalf of NRCS through conservation outreach.

The long-term viability of Equity and Justice should rest on efficient care, control, use, and accessibility of resources by those communities most affected regardless of ethnicity.

For questions or concerns about **Equity**, please contact Vivian Dickson, NRCS Director of Equity:
vivian.dickson@usda.gov.

Program discrimination complaints may be filed at www.usda.gov/oascr or by sending an email to oac@ascr.usda.gov.
