

PART 1465—AGRICULTURAL MANAGEMENT ASSISTANCE

Contents

Subpart A—General Provisions

- §1465.1 Purposes and applicability.
- §1465.2 Administration.
- §1465.3 Definitions.
- §1465.4 National priorities.
- §1465.5 Program requirements.
- §1465.6 AMA plan of operations.
- §1465.7 Conservation practices.
- §1465.8 Technical services provided by qualified personnel not affiliated with USDA.

Subpart B—Contracts

- §1465.20 Applications for participation and selecting applications for contracting.
- §1465.21 Contract requirements.
- §1465.22 Conservation practice operation and maintenance.
- §1465.23 Payments.
- §1465.24 Contract modifications, extensions, and transfers of land.
- §1465.25 Contract violations and termination.

Subpart C—General Administration

- §1465.30 Appeals.
 - §1465.31 Compliance with regulatory measures.
 - §1465.32 Access to operating unit.
 - §1465.33 Equitable relief.
 - §1465.34 Offsets and assignments.
 - §1465.35 Misrepresentation and scheme or device.
 - §1465.36 Environmental services credits for conservation improvements.
-

AUTHORITY: 7 U.S.C. 1524(b).

SOURCE: 74 FR 64595, Dec. 8, 2009, unless otherwise noted.

Subpart A—General Provisions

§1465.1 Purposes and applicability.

Through the Agricultural Management Assistance program (AMA), the Natural Resources Conservation Service (NRCS) provides financial assistance funds annually to producers in 16 statutorily designated States to: Construct or improve water management structures or irrigation structures; plant trees to form windbreaks or to improve water quality; and mitigate risk through production diversification or resource conservation practices including soil erosion control, integrated pest management, or the transition to organic farming. AMA is applicable in

Connecticut, Delaware, Hawaii, Maine, Maryland, Massachusetts, Nevada, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Utah, Vermont, West Virginia, and Wyoming.

§1465.2 Administration.

(a) Administration and implementation of AMA's conservation provisions for the Commodity Credit Corporation (CCC) is assigned to NRCS, using the funds, facilities, and authorities of the CCC. Accordingly, where NRCS is mentioned in this part, it also refers to the CCC's funds, facilities, and authorities, where applicable.

(b) NRCS will:

- (1) Provide overall management and implementation leadership for AMA;
- (2) Establish policies, procedures, priorities, and guidance for implementation;
- (3) Establish payment limits;
- (4) Determine eligible practices;
- (5) Develop and approve AMA plans of operation and contracts with selected participants;
- (6) Provide technical leadership for implementation, quality assurance, and evaluation of performance;
- (7) Make AMA allocation and contract funding decisions; and
- (8) Issue payments for completed conservation practices.

(c) No delegation in this part to lower organizational levels will preclude the Chief of NRCS from determining any issues arising under this part or from reversing or modifying any determination made under this part.

§1465.3 Definitions.

The following definitions apply to this part and all documents used in accordance with this part, unless specified otherwise:

Agricultural land means cropland, grassland, rangeland, pasture, and other agricultural land on which agricultural or forest-related products or livestock are produced. Other agricultural lands may include cropped woodland, marshes, incidental areas included in the agricultural operation, and other types of agricultural land used for production of livestock.

Agricultural operation means a parcel or parcels of land whether contiguous or noncontiguous, which the producer is listed as the operator or owner/operator in the Farm

Service Agency (FSA) record system, which is under the effective control of the producer at the time the producer applies for a contract, and which is operated by the producer with equipment, labor, management and production, forestry, or cultivation practices that are substantially separate from other operations.

AMA plan of operations (APO) means the document that identifies the location and timing of conservation practices that the participant agrees to implement on eligible land in order to address the resource concerns and program purposes. The APO is part of the AMA contract.

Applicant means a person, legal entity, joint operation, or Indian Tribe that has an interest in an agricultural operation, as defined in 7 CFR part 1400, who has requested in writing to participate in AMA.

Beginning farmer or rancher means a person or legal entity who:

(1) Has not operated a farm or ranch, or who has operated a farm or ranch for not more than 10 consecutive years. This requirement applies to all members of an entity who will materially and substantially participate in the operation of the farm or ranch.

(2) In the case of a contract with an individual, individually, or with the immediate family, material and substantial participation requires that the individual provide substantial day-to-day labor and management of the farm or ranch consistent with the practices in the county or State where the farm or ranch is located.

(3) In the case of a contract with an entity or joint operation, all members must materially and substantially participate in the operation of the farm or ranch. Material and substantial participation requires that each of the members provide some amount of the management, or labor and management necessary for day-to-day activities, such that if each of the members did not provide these inputs, operation of the farm or ranch would be seriously impaired.

Chief means the Chief of NRCS, United States Department of Agriculture (USDA), or designee.

Conservation district means any district or unit of State, Tribal, or local government formed under State, Tribal, or territorial law for the express purpose of developing and carrying out a local soil and water conservation program. Such district or unit of government may be referred to as a “conservation district,” “soil conservation district,” “soil and water conservation district,” “resource conservation district,” “natural resource district,” “land conservation committee,” or similar name.

Conservation practice means one or more conservation improvements and activities, including structural practices, land management practices, vegetative practices, forest management, and other improvements that achieve program purposes.

Contract means a legal document that specifies the rights and obligations of any participant accepted into the program. An AMA contract is an agreement for the transfer of assistance from USDA to the participant to share in the costs of applying conservation practices.

Designated conservationist means an NRCS employee whom the State Conservationist has designated as responsible for AMA administration in a specific area.

Historically underserved producer means an eligible person, joint operation, or legal entity who is a beginning farmer or rancher, socially disadvantaged farmer or rancher, limited resource farmer or rancher, or nonindustrial private forest landowner who meets the beginning, socially disadvantaged, or limited resource qualifications set forth in this section.

Indian Tribe means any Indian Tribe, band, nation, or other organized group or community, including any Alaska Native village, or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 *et seq.*) that is eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

Indian land is an inclusive term describing all lands held in trust by the United States for individual Indians or Tribes, or all lands, titles to which are held by individual Indians or Tribes, subject to Federal restrictions against alienation or encumbrance, or all lands which are subject to the rights of use, occupancy, and benefit of certain Tribes. For purposes of this part, the term Indian land also includes land for which the title is held in fee status by Indian Tribes and the United States Government-owned land under the Bureau of Indian Affairs (BIA) jurisdiction.

Joint operation means, as defined in 7 CFR part 1400, a general partnership, joint venture, or other similar business arrangement in which the members are jointly and severally liable for the obligations of the organization.

Legal entity means, as defined in 7 CFR part 1400, an entity created under Federal or State law that: (1) Owns land or an agricultural commodity, product, or livestock; or (2) produces an agricultural commodity, product, or livestock.

Lifespan means the period of time in which a conservation practice should be operated and maintained and used for the intended purpose.

Limited resource farmer or rancher means:

(1) A person with direct or indirect gross farm sales of not more than \$155,200 in each of the previous 2 years (adjusted for inflation using the Prices Paid by Farmer Index as compiled by the National Agricultural Statistics Service), and

(2) Has a total household income at or below the national poverty level for a family of four, or less than 50 percent of county median household income in each of the previous 2 years (to be determined annually using Commerce Department data).

Liquidated damages means a sum of money stipulated in the AMA contract that the participant agrees to pay NRCS if the participant fails to adequately complete the terms of the contract. The sum represents an estimate of the technical assistance expenses incurred to service the contract and reflects the difficulties of proof of loss and the inconvenience or non-feasibility of otherwise obtaining an adequate remedy.

Livestock means all animals produced on farms and ranches, as determined by the Chief.

Natural Resources Conservation Service is an agency of USDA which has responsibility for administering AMA using the funds, facilities, and authorities of the CCC.

Nonindustrial private forest land means rural land that has existing tree cover or is suitable for growing trees and is owned by any nonindustrial private individual, group, association, corporation, Indian Tribe, or other private legal entity that has definitive decision-making authority over the land.

Operation and maintenance means work performed by the participant to keep the applied conservation practice functioning for the intended purpose during the conservation practice lifespan. Operation includes the administration, management, and performance of non-maintenance actions needed to keep the completed practice safe and functioning as intended. Maintenance includes work to prevent deterioration of the practice, repairing damage, or replacement of the practice to its original condition if one or more components fail.

Operation and maintenance (O&M) agreement means the document that, in conjunction with the APO, specifies the operation and maintenance responsibilities of the participants for conservation practices installed with AMA assistance.

Participant means a person, legal entity, joint operation, or Indian Tribe that is receiving payment or is responsible for implementing the terms and conditions of an AMA contract.

Payment means the financial assistance provided to the participant based on the estimated costs incurred in performing or implementing conservation practices, including costs for planning, design, materials, equipment, installation, labor, maintenance, management, or training, as well as the estimated income foregone by the producer for the designated conservation practices.

Person means, as defined in 7 CFR part 1400, an individual, natural person and does not include a legal entity.

Producer means a person, legal entity, joint operation, or Indian Tribe that has an interest in the agricultural operation, according to 7 CFR part 1400, or who is engaged in agricultural production or forestry management.

Resource concern means a specific natural resource problem that represents a significant concern in a State or region and is likely to be addressed successfully through the implementation of the conservation practices by participants.

Secretary means the Secretary of USDA.

Socially disadvantaged farmer or rancher means a farmer or rancher who has been subjected to racial or ethnic prejudices because of their identity as a member of a group without regard to their individual qualities.

State Conservationist means the NRCS employee authorized to direct and supervise NRCS activities in a State, Caribbean Area, or Pacific Islands Area.

Structural practice means a conservation practice, including a vegetative practice, that involves establishing, constructing, or installing a site-specific measure to conserve and protect a resource from degradation, or improve soil, water, air, or related natural resources in the most cost-effective manner. Examples include, but are not limited to, animal waste management facilities, terraces, grassed waterways, tailwater pits, livestock water developments, contour grass strips, filterstrips, critical area plantings, tree plantings, establishment or improvement of wildlife habitat, and capping of abandoned wells.

Technical assistance means technical expertise, information, and tools necessary for the conservation of natural resources on land active in agricultural, forestry, or related uses. The term includes the following:

(1) Technical services provided directly to farmers, ranchers, and other eligible entities, such as conservation planning, technical consultation, and assistance with design and implementation of conservation practices; and

(2) Technical infrastructure, including activities, processes, tools, and agency functions needed to support delivery of technical services, such as technical standards, resource inventories, training, data, technology, monitoring, and effects analyses.

Technical Service Provider (TSP) means an individual, private-sector entity, or public agency certified by NRCS to provide technical services to program participants or in lieu of, or on behalf of NRCS.

§1465.4 National priorities.

(a) The Chief, with advice from State Conservationists, will identify national priorities to achieve the conservation objectives of AMA.

(b) National priorities will be used to guide annual funding allocations to States. (c) State Conservationists will use national priorities in conjunction with State and local priorities to prioritize and select AMA applications for funding.

(d) NRCS will undertake periodic reviews of the national priorities and the effects of program delivery at the State and local levels to adapt the program to address emerging resource issues.

§1465.5 Program requirements.

(a) Participation in AMA is voluntary. The participant, in cooperation with the local conservation district, applies for practice installation for the agricultural operation. NRCS provides payments through contracts to apply needed conservation practices within a time schedule specified in the APO.

(b) The Chief determines the funds available for financial assistance according to the purpose and projected cost for which the financial assistance is provided in a fiscal year. The Chief allocates the funds available to carry out AMA in consideration of national priorities established under §1465.4.

(c) To be eligible to participate in AMA, an applicant must:

(1) Own or operate an agricultural operation within an applicable State, as listed in 1465.1;

(2) Provide NRCS with written evidence of ownership or legal control for the life of the proposed contract, including the O&M agreement. An exception may be made by the Chief:

(i) In the case of land allotted by the BIA, Tribal land, or other instances in which the Chief determines that there is sufficient assurance of control; or

(ii) If the applicant is a tenant of the land involved in agricultural production, the applicant will provide NRCS with the written concurrence of the landowner in order to apply a structural practice(s);

(3) Submit an application form NRCS-CPA-1200;

(4) Agree to provide all information to NRCS determined to be necessary to assess the merits of a proposed project and to monitor contract compliance;

(5) Provide a list of all members of the legal entity and embedded entities along with members' tax identification numbers and percentage interest in the entity. Where applicable, American Indians, Alaska Natives, and Pacific Islanders may use another unique identification number for each individual eligible for payment;

(6) With regard to contracts with Indian Tribes or Indians represented by the BIA, payments if a BIA or Tribal official certify in writing that no one individual, directly or indirectly, will receive more than the payment limitation. The Tribal entity must also provide, annually, a listing of individuals and payments made by social security or tax identification number or other unique identification number, during the previous year for calculation of overall payment limitations. The BIA or Tribal entity must also provide, at the request of NRCS, proof of payments made to the person or legal entity that incurred costs or sacrificed income related to conservation practice implementation.

(7) Supply other information, as required by NRCS, to determine payment eligibility as established by 7 CFR part 1400, Adjusted Gross Income;

(8) With regard to any participant that utilizes a unique identification number as an alternative to a tax identification number, the participant will utilize only that identifier for any and all other AMA contracts to which the participant is a party. Violators will be considered to have provided fraudulent representation and be subject to full penalties of §1465.25;

(9) States, political subdivisions, and entities thereof will not be persons eligible for payment. Any cooperative association of producers that markets commodities for producers will not be considered to be a person eligible for payment;

(10) Be in compliance with the terms of all other USDA-administered conservation program agreements to which the participant is a party; and

(11) Develop and agree to comply with an APO and O&M agreement, as described in §1465.3.

(d) Land may only be considered for enrollment in AMA if NRCS determines that the land is:

(1) Privately owned land;

(2) Publicly owned land where:

(i) The land is a working component of the participant's agricultural and forestry operation; and

(ii) The participant has control of the land for the term of the contract; and

(iii) The conservation practices to be implemented on the public land are necessary and will contribute to an improvement in the identified resource concern; or

(3) The land is Indian land.

[74 FR 64595, Dec. 8, 2009, as amended at 76 FR 19684, Apr. 8, 2011; 83 FR 23209, May 18, 2018]

§1465.6 AMA plan of operations.

(a) All conservation practices in the APO must be approved by NRCS and developed and carried out in accordance with the applicable NRCS technical guidance.

(b) The participant is responsible for implementing the APO.

(c) The APO must include:

(1) A description of the participant's specific conservation and environmental objectives to be achieved;

(2) To the extent practicable, the quantitative or qualitative goals for achieving the participant's conservation and environmental objectives;

(3) A description of one or more conservation practices in the conservation system, including conservation planning, design, or installation activities to be implemented to achieve the conservation and environmental objectives;

(4) A description of the schedule for implementing the conservation practices, including timing, sequence, operation, and maintenance; and

(5) Information that will enable evaluation of the effectiveness of the plan in achieving the environmental objectives.

(d) An APO may be modified in accordance with §1465.24.

§1465.7 Conservation practices.

(a) The State Conservationist will determine the conservation practices eligible for AMA payments. To be considered eligible conservation practices, the practices must meet the purposes of the AMA as set out in §1465.1. A list of eligible practices will be available to the public.

(b) The APO includes the schedule of operations, activities, and payment rates of the practices needed to solve identified natural resource concerns.

§1465.8 Technical services provided by qualified personnel not affiliated with USDA.

(a) NRCS may use the services of qualified TSPs in performing its responsibilities for technical assistance.

(b) Participants may use technical services from qualified personnel of other Federal, State, local agencies, Indian Tribes, or individuals who are certified as TSPs by NRCS.

(c) Technical services provided by qualified personnel not affiliated with USDA may include, but are not limited to: conservation planning; conservation practice survey, layout, design, installation, and certification; and information, education, and training for producers, and related technical services as defined in 7 CFR part 652.

(d) NRCS retains approval authority of work done by non-NRCS personnel for the purpose of approving AMA payments.

Subpart B—Contracts

§1465.20 Applications for participation and selecting applications for contracting.

(a) Any producer who has eligible land may submit an application for participation in AMA at a USDA service center. Producers who are members of a joint operation will file a single application for the joint operation.

(b) NRCS will accept applications throughout the year. The State Conservationist will distribute information on the availability of assistance, national priorities, and the State-specific goals. Information will be provided that explains the process to request assistance.

(c) The State Conservationist will develop ranking criteria and a ranking process to select applications, taking into account national, State, Tribal, and local priorities.

(d) The State Conservationist, or designated conservationist, using a locally-led process will evaluate, rank, and select applications for contracting based on the State-developed ranking criteria and ranking process.

(e) The State Conservationist, or designated conservationist, will work with the applicant to collect the information necessary to evaluate the application using the ranking criteria.

§1465.21 Contract requirements.

(a) In order for a participant to receive payments, the participant will enter into a contract agreeing to implement one or more eligible conservation practices. Costs for technical services may be included in the contract.

(b) An AMA contract will:

(1) Encompass all portions of an agricultural operation receiving AMA assistance;

(2) Be for a duration of not more than 10 years;

(3) Incorporate all provisions required by law or statute, including participant requirements to:

(i) Not conduct any practices on the agricultural operation that would tend to defeat the purposes of the contract according to §1465.25;

(ii) Refund any AMA payments received with interest, and forfeit any future payments under AMA, on the violation of a term or condition of the contract, consistent with the provisions of §1465.25;

(iii) Refund all AMA payments received on the transfer of the right and interest of the producer in land subject to the contract, unless the transferee of the right and interest agrees to assume all obligations, including operation and maintenance of the AMA contract's conservation practices, consistent with the provisions of §1465.24; and

(iv) Supply information as required by NRCS to determine compliance with the contract and requirements of AMA.

(4) Specify the participant's requirements for operation and maintenance of the applied conservation practices consistent with the provisions of §1465.22; and

(5) Specify any other provision determined necessary or appropriate by NRCS.

(c) The participant must apply the practice(s) according to the schedule set out in the APO.

[74 FR 64595, Dec. 8, 2009, as amended at 79 FR 44641, Aug. 1, 2014]

§1465.22 Conservation practice operation and maintenance.

(a) The contract will incorporate the O&M agreement that addresses the operation and maintenance of the conservation practices applied under the contract.

(b) NRCS expects the participant to operate and maintain each conservation practice installed under the contract for its intended purpose for the conservation practice lifespan as specified in the O&M agreement.

(c) NRCS may periodically inspect the conservation practice(s) during the contract duration to ensure that operation and maintenance requirements are being carried out, and that the conservation practice is fulfilling its intended objectives.

(d) Conservation practices installed before the contract execution, but included in the contract to obtain the environmental benefits agreed upon, must be operated and maintained as specified in the contract and O&M agreement.

(e) If NRCS finds during the contract that a participant is not operating and maintaining practices in an appropriate manner, NRCS may terminate and request a refund of payments made for that conservation practice under the contract.

(f) In the event a conservation practice fails through no fault of the participant, the State Conservationist may issue payments to re-establish the conservation practice, at the rates established in accordance with §1465.23, provided such payments do not exceed the payment limitation requirements as set forth in §1465.23.

§1465.23 Payments.

(a) The Federal share of payments to a participant will be:

(1) Up to 75 percent of the estimated incurred cost or 100 percent of the estimated income foregone of an eligible practice, except as provided in (a)(2) of this section.

(2) In the case of historically underserved producers, the payment rate will be the applicable rate and an additional rate that is not less than 25 percent above the applicable rate, provided that this increase does not exceed 90 percent of the estimated incurred costs or estimated income foregone.

(3) In no instance will the total financial contributions for an eligible practice from other sources exceed 100 percent of the estimated incurred cost of the practice.

(b) Participants may contribute their portion of the estimated costs of practices through in-kind contributions, including labor and materials, providing the materials contributed meet the NRCS standard and specifications for the practice being installed.

(c) Payments for practices applied prior to application or contract approval—

(1) Payments will not be made to a participant for a conservation practice that was applied prior to application for the program.

(2) Payments will not be made to a participant for a conservation practice that was initiated or implemented prior to contract approval, unless the participant obtained a waiver from the State Conservationist, or designated conservationist, prior to practice implementation.

(d) The total amount of payments paid to a person or legal entity under this part may not exceed \$50,000 for any fiscal year.

(e) For purposes of applying the payment limitations provided for in this section, NRCS will use the provisions in 7 CFR part 1400, Payment Limitation and Payment Eligibility.

(f) A participant will not be eligible for payments for conservation practices on eligible land if the participant receives payments or other benefits for the same practice on the same land under any other conservation program administered by USDA.

(g) The participant and NRCS must certify that a conservation practice is completed in accordance with the contract before NRCS will approve any payment.

(h) Subject to fund availability, the payment rates for conservation practices scheduled after the year of contract obligation may be adjusted to reflect increased costs.

§1465.24 Contract modifications, extensions, and transfers of land.

(a) The participant and NRCS may modify a contract if both parties agree to the contract modification, the APO is revised in accordance with NRCS requirements, and the designated conservationist approves the modified contract.

(b) It is the participant's responsibility to notify NRCS when he or she either anticipates the voluntary or involuntary loss of control of the land.

(c) The participant and NRCS may mutually agree to transfer a contract to another party.

(1) To receive an AMA payment, the transferee must be determined by NRCS to be eligible to participate in AMA and will assume full responsibility under the contract, including the O&M agreement for those conservation practices already installed and those conservation practices to be installed as a condition of the contract.

(2) With respect to any and all payment owed to participants who wish to transfer ownership or control of land subject to a contract, the division of payment will be determined by the original party and the party's successor. In the event of a dispute or claim on the distribution of payments, NRCS may withhold payments without the accrual of interest pending a settlement or adjudication on the rights to the funds.

(d) NRCS may require a participant to refund all or a portion of any assistance earned under AMA if the participant sells or loses control of the land under an AMA contract, and the successor in interest is not eligible or refuses to accept future payments to participate in the AMA or refuses to assume responsibility under the contract.

(e) The contract participants will be jointly and severally responsible for refunding the payments with applicable interest pursuant to paragraph (d) of this section.

§1465.25 Contract violations and termination.

(a) If NRCS determines that a participant is in violation of the terms of a contract, O&M agreement, or other documents incorporated into the contract, NRCS will give the participant notice and 60 days, unless otherwise determined by the State Conservationist, to correct the violation and comply with the terms of the contract and attachments thereto. If a participant continues in violation, the State Conservationist may terminate the AMA contract.

(b) Notwithstanding the provisions of (a) of this section, a contract termination will be effective immediately upon a determination by the State Conservationist that the participant has submitted false information or filed a false claim, or engaged in any act, scheme, or device for which a finding of ineligibility for payments is permitted under the provisions of §1465.35, or in a case in which the actions of the party involved are deemed to be sufficiently purposeful or negligent to warrant a termination without delay.

(c) If NRCS terminates a contract, the participant will forfeit all rights to future payments under the contract and refund all or part of the payments received, plus interest. Participants violating AMA contracts may be determined ineligible for future NRCS-administered conservation program funding.

(1) The State Conservationist may require only a partial refund of the payments received if the State Conservationist determines that a previously installed conservation practice can function independently and is not affected by the violation or the absence of other conservation practices that would have been installed under the contract.

(2) If NRCS terminates a contract due to breach of contract, or the participant voluntarily terminates the contract before any contractual payments have been made, the participant will forfeit all rights for further payments under the contract and will pay such liquidated damages as prescribed in the contract. The State Conservationist will have the option to waive the liquidated damages depending upon the circumstances of the case.

(i) When making all contract termination decisions, NRCS may reduce the amount of money owed by the participant by a proportion that reflects the good faith effort of the participant to comply with the contract or the existence of hardships beyond the participant's control that have prevented compliance with the contract. If the participant claims hardship, that claim must be well documented and cannot have existed when the applicant applied for participation in the program.

(ii) The participant may voluntarily terminate a contract if NRCS agrees based on NRCS' determination that termination is in the public interest.

(iii) In carrying out NRCS' role in this section, NRCS may consult with the local conservation district.

Subpart C—General Administration

§1465.30 Appeals.

(a) A participant may obtain administrative review of an adverse decision under AMA in accordance with 7 CFR parts 11 and 614, except as provided in paragraph (b) of this section.

(b) The following decisions are not appealable:

(1) Payment rates, payment limits;

(2) Funding allocations;

(3) Eligible conservation practices; and

(4) Other matters of general applicability, including:

(i) Technical standards and formulas;

(ii) Denial of assistance due to lack of funds or authority; or

(iii) Science-based formulas and criteria.

§1465.31 Compliance with regulatory measures.

Participants who carry out conservation practices will be responsible for obtaining the authorities, rights, easements, permits, or other approvals necessary for the implementation, operation, and maintenance of the conservation practices in keeping with applicable laws and

regulations. Participants will be responsible for compliance with all laws and for all effects or actions resulting from the participant's performance under the contract.

§1465.32 Access to operating unit.

Any authorized NRCS representative will have the right to enter an operating unit or tract for the purpose of determining eligibility and for ascertaining the accuracy of any representations related to contracts and performance. Access will include the right to provide technical assistance; determine eligibility; inspect any work undertaken under the contracts, including the APO and O&M agreement; and collect information necessary to evaluate the conservation practice performance as specified in the contracts. The NRCS representative will make an effort to contact the participant prior to exercising this provision.

§1465.33 Equitable relief.

(a) If a participant relied upon the advice or action of any authorized NRCS representative and did not know, or have reason to know, that the action or advice was improper or erroneous, the participant may be eligible for equitable relief under 7 CFR part 635, section 635.3. The financial or technical liability for any action by a participant that was taken based on the advice of an NRCS certified TSP is the responsibility of the certified TSP and will not be assumed by NRCS when NRCS authorizes payment.

(b) If a participant has been found in violation of a provision of the AMA contract or any document incorporated by reference through failure to comply fully with that provision, the participant may be eligible for equitable relief under 7 CFR part 635, section 635.4.

§1465.34 Offsets and assignments.

(a) Except as provided in paragraph (b) of this section, any payment or portion thereof to any participant will be made without regard to questions of Title under State law and without regard to any claim or lien against the crop, or proceeds thereof, in favor of the owner or any other creditor except agencies of the United States Government. The regulations governing offsets and withholdings found at 7 CFR part 1403 will be applicable to contract payments.

(b) AMA participants may assign any payments in accordance with 7 CFR part 1404.

§1465.35 Misrepresentation and scheme or device.

(a) A participant who is determined to have erroneously represented any fact affecting an AMA determination made in accordance with this part will not be entitled to contract payments and must refund to NRCS all payments plus interest, as determined in accordance with 7 CFR part 1403.

(b) A participant will refund to NRCS all payments, plus interest, as determined by NRCS with respect to all NRCS contracts to which they are a party if they are determined to have knowingly:

- (1) Adopted any scheme or device that tends to defeat the purpose of AMA;
- (2) Made any fraudulent representation;
- (3) Adopted any scheme or device for the purpose of depriving any tenant or sharecropper of the payments to which such person would otherwise be entitled under the program; or
- (4) Misrepresented any fact affecting an AMA determination.

(c) Where paragraph (a) or (b) of this section applies, the participant's interest in all contracts will be terminated. In accordance with §1465.25(c), NRCS may determine the producer ineligible for future funding from any NRCS conservation programs.

§1465.36 Environmental services credits for conservation improvements.

NRCS recognizes that environmental benefits will be achieved by implementing conservation practices funded through AMA, and that environmental credits may be gained as a result of implementing activities compatible with the purposes of an AMA contract. NRCS asserts no direct or indirect interest on these credits. However, NRCS retains the authority to ensure that operation and maintenance requirements for AMA-funded improvements are met, consistent with §1465.21 and §1465.22. Where activities may impact the land under an AMA contract, participants are highly encouraged to request an operation and maintenance compatibility determination prior to entering into any credit agreements. The AMA conservation program contract may be modified in accordance with policies outlined in §1465.24 provided the modifications meet AMA purposes and are in compliance with this part.
