

Part 642 – Specifications

Chapter 3 – National Standard Material Specifications

Material Specification 512—Wood Piles

A. Scope

This specification covers the quality of wood piles.

B. Quality of Piles

The piles shall conform to the requirements of ASTM D25 for the specified classes and sizes of piles.

C. Treatment

Piles shall be treated with the specified type and amount of preservative and in conformance with the requirements of Material Specification 585.

D. Marking

Each treated pile delivered to the job site shall be marked as specified in Material Specification 585.
