

Attachment B – *Eligible Practices for Monitoring* and categories for Avoid, Control, and Trap designation. Supporting practices will also be eligible as determined by each State for the core practices noted if approved by the Water Quality Management Team. Core practices may be funded by national headquarters or the State. Supporting practices will be funded by the State.

Core Practices			
Practice Code	Practice Name	Practice Payment Cap	Practice Notes
201	Edge-of-Field Water Quality Monitoring – Data Collection and Evaluation	None	
202	Edge-of-Field Water Quality Monitoring – System Installation	None	
Supporting Practices			
Practice Code	Practice Name	Practice Payment Cap	Practice Notes
Avoiding			
328	Conservation Crop Rotation	\$2,500	a, e
340	Cover Crop	\$2,500	e
528	Prescribed Grazing	\$5,000	f
590	Nutrient Management	\$2,500	b, e
633	Waste Recycling	\$2,500	c, e
Controlling			
362	Diversion	\$2,500	
554	Drainage Water Management	\$2,500	d, e
410	Grade Stabilization Structure	\$5,000	d
412	Grassed Waterway	\$5,000	d
449	Irrigation Water Management	\$2,500	d, e
329	Residue & Tillage Management, No-Till/Strip Till/Direct Seed	\$2,500	e
345	Residue & Tillage Management, Mulch Till	\$2,500	e
646	Shallow Water Development and Management for Wildlife	\$2,500	e
Trapping			
333	Amending Soil Properties with Gypsum Products	\$2,500	
327	Conservation Cover	\$2,500	
656	Constructed Wetland	\$5,000	d
747	Denitrifying Bioreactor	\$5,000	
393	Filter Strip	\$2,500	
391	Riparian Forest Buffer	\$2,500	
390	Riparian Herbaceous Cover	\$2,500	
350	Sediment Basin	\$5,000	d
782	Phosphorous Removal System	\$5,000	
601	Vegetative Barrier	\$2,500	
635	Vegetated Treatment Area	\$2,500	
638	Water and Sediment Control Basin systems	\$5,000	d
658	Wetland Creation	\$5,000	
659	Wetland Enhancement	\$5,000	
657	Wetland Restoration	\$5,000	

- a) Monitoring will focus on rotations with a minimum of three different crops and/or at least 2 years in perennial/multi-year species.
- b) Monitoring will focus on the timing and placement of manure and/or commercial fertilizers, and/or high-level management, such as Precision and/or Adaptive Nutrient Management.
- c) Monitoring will only be completed for “field-applied management of manure” scenarios that require management changes to form, timing, placement, and/or rate.
- d) Monitoring will also evaluate the full system of supporting practices necessary for proper practice function; payment caps for these practices, in combination, will not exceed the cap of the primary practice.
- e) Practice payment will be limited to the listed amount annually, up to the maximum number of payments per policy.
