

NEH Part 631, Chapter 23, "Sediment Transport"  
Summary of Revisions and General Notes

1. Formatting
  - This draft meets formatting requirements for handbooks as agreed to by the Management Services Division's Directives Team and the Conservation Engineering Division.
  - Part of the formatting requirements resulted in all the tables, graphs, photos, figures, or other illustrative diagrams to be labeled as Figures.
2. The 1983 version of Section 3, "Sedimentation," had nine chapters and is being replaced by the following chapters:
  - 210-NEH-631, Chapter 21, "Sediment Sources"
  - 210-NEH-631, Chapter 22, "Sediment Properties"
  - 210-NEH-631, Chapter 23, "Sediment Transport"
  - 210-NEH-631, Chapter 24, "Sediment Deposition"
3. 210-NEH-631, Chapter 23, "Sediment Transport," incorporates 210-NEH, Section 3, "Sedimentation," Chapter 4, "Transmission of Sediment by Water."
4. Symbols and Terms were moved from the beginning of the document:
  - The Symbols section was moved to Section 631.2311.
  - The Terms section was moved to Glossary of Terms, Section 631.2308.
5. 631.2300, Factors Affecting Sediment Transport
  - Formatting changes.
6. 631.2301, Mechanism of Entrainment
7. 631.2302, Hydraulic Considerations
8. 631.2303, Suspended Sediment
9. 631.2304, Transport of Bed Material
10. 631.2305, Application and Limitations of Formulas
11. 631.2306, Summary of Procedures for Evaluating Bed-Material Transport Problems
12. 631.2307, Comparison of Predictive Methods
13. 631.2308, Glossary of Terms
  - Moved from the beginning of the document.
14. 631.2309, References
  - Updated and formatted.
15. 631.2310, Bibliography
16. 631.2311, Symbols
  - Moved from the beginning of the document.
