
Title 210 – National Engineering Manual

Table of Contents

Amended November 2023

Part 500 – Introduction

- 500.0 Purpose
- 500.1 Abbreviations
- 500.2 Policy

Part 501 – Authorizations

Subpart A – Review and Approval

- 501.0 General
- 501.1 Scope
- 501.2 Technical Quality
- 501.3 Compliance of Engineering Work With Laws and Regulations
- 501.4 Engineering Job Approval Authority
- 501.5 Engineering Job Review
- 501.6 Engineering Work Reviewed for Other Agencies
- 501.7 Classification of Engineering Jobs
- 501.8 Engineering Job Classifications That Utilize Controlling Factors
- 501.9 Engineering Job Approval Authority

Subpart B – Repair and Rehabilitation

- 501.20 General
- 501.21 Scope
- 501.22 Applicable Standards
- 501.23 Dams Installed Without NRCS Assistance
- 501.24 Special Conditions

Subpart C – Variance and Changes

- 501.30 General
- 501.31 National Handbook of Conservation Practices
- 501.32 Channel Stability Criteria

Subpart D – Engineering Work on National Forests

- 501.40 General

Subpart E – Assistance of Shoreline Erosion Control

- 501.50 General
- 501.51 Scope
- 501.52 Coordination with U.S. Army Corps of Engineers (USACE)
- 501.53 Requirements for Assistance

Part 503 – Safety

Subpart A – Engineering Activities Affecting Utilities

- 503.0 General
- 503.1 Scope
- 503.2 General Considerations
- 503.3 Investigations
- 503.4 Buried Utilities
- 503.5 Documentation
- 503.6 State Laws

Subpart B – Public Safety at Structure Sites

- 503.10 General
- 503.11 Scope
- 503.12 Recommended Safety Measures
- 503.13 Maintenance of Steep Slopes

Subpart C – Safety During Geologic Investigations

- 503.20 General
- 503.21 Scope
- 503.22 Hazard Potential

Subpart D – Dam Safety

- 503.50 Involvement With Dams
- 503.51 USDA Involvement
- 503.52 NRCS Dam Safety Officer
- 503.53 Interagency Involvement
- 503.54 Other (Nongovernmental) Involvement
- 503.55 NRCS-State Relationships
- 503.56 Responsibility for Dams
- 503.57 NRCS Assistance
- 503.58 Key Factors
- 503.59 Assistance to State Dams Safety Programs
- 503.60 Department of Homeland Security
- 503.61 DamWatch

Subpart E – Prohibited Technical Assistance

503.70 General

503.71 Prohibited Activities

Part 504 – Special Investigations, Studies, and Reports

Subpart A – Problems and Deficiencies

504.0 General

504.1 Scope

504.2 Reporting Problems, Deficiencies, and Failures

504.3 Committee Assignments

504.4 Procedures

504.5 Engineering Report

504.6 Report Review and Acceptance

504.7 Release and Distribution of Reports

Subpart B – Emergency Spillway Performance

504.10 General

504.11 Scope

504.12 Reporting Major Flows

504.13 Assignments

504.14 Procedures

504.15 Report

504.16 Review and Approval

Subpart C – Reservoir Sedimentation Surveys

504.20 General

504.21 Procedures

504.22 Reports

Subpart D – Field Trials and Evaluations

504.30 General

504.31 Scope

504.32 Approval Procedures

504.33 Study Plan

504.34 Reports

Part 505 – Non-NRCS Engineering Services

Subpart A – Introduction

505.0 General

Subpart B – Procedures

- 505.10 Technical Service Providers
- 505.11 Non-TSP Providers
- 505.12 Conservation Contractors
- 505.13 Engineering Services Contracts and Agreements
- 505.14 Exchange of Technical Services Between Government Agencies
- 505.15 Standard Designs and Drawings
- 505.16 Engineering Services Not Provided by NRCS

Subpart C – Exhibits

- 505.20 Conservation Contractor Sample Letter

Part 506 – Technical Materials

- 506.0 General
- 506.1 Definitions
- 506.2 Organization of Permanent Materials
- 506.3 Reserved
- 506.4 Developing NEH Materials
- 506.5 Distribution of Engineering Technical Materials Within NRCS
- 506.6 Distribution of Engineering Technical Materials Outside NRCS

Part 510 – Planning

- 510.0 General
- 510.1 Scope
- 510.2 Documentation
- 510.3 Engineering Data to Support Plans
- 510.4 Criteria
- 510.5 Cost Estimates
- 510.6 Postdesign Life Considerations

Part 511 – Design

Subpart A – Procedures

- 511.0 General
- 511.1 Scope
- 511.2 Design Stages
- 511.3 Operating Procedures
- 511.4 Design Analysis
- 511.5 Design Checking and Review
- 511.6 External Reviews
- 511.7 Design Criteria

511.8 Construction Drawings and Specifications

Subpart B – Documentation

511.10 Scope

511.11 Design Folders

Subpart C – Instrumentation

511.20 General

511.21 Scope

511.22 Need for Reliable Instruments

511.23 Use of Instrumentation

511.24 Instrumentation Plans

511.25 Instrumentation Monitoring and Reporting

Part 512 – Construction

Subpart A – General Information

512.0 Introduction

512.1 Scope

512.2 Definitions

512.3 Value Engineering

Subpart B – Preconstruction Activities

512.10 Selection of the Contractor

512.11 Prebid or Proposal Meeting (Site Showing)

512.12 Evaluation of Bidders

512.13 Preconstruction Conference

512.14 Partnering

Subpart C – Evaluation of Construction Materials

512.20 General

512.21 Evaluation Procedures

512.22 Waivers of Material Certifications

512.23 Prequalification of Materials

Subpart D – Quality Assurance Activities

512.30 General

512.31 Definitions

512.32 QA Procedures

512.33 Inspection of Materials

Subpart E – Equipment, Records, and Coordination

512.40 Engineering Equipment

- 512.41 Records
- 512.42 Coordination Between Disciplines

Subpart F – As-Builts

- 512.50 General
- 512.51 Scope
- 512.52 Documentation
- 512.53 Disposition

Subpart G – Safety

- 512.60 General
- 512.61 Personal Protective Equipment
- 512.62 Training

Subpart H – Exhibits

- 512.70 Exhibit A – OSHA 3071 Job Hazard Analysis
- 512.71 Exhibit B – NRCS Job Hazard Analysis Form

Part 520 – Soil and Water Resource Development

Subpart A – Erosion and Sediment Control

- 520.0 General
- 520.1 Minimizing Erosion and Sediment During Construction

Subpart B – Floodplain Management

- 520.10 General
- 520.11 Scope
- 520.12 Description
- 520.13 Types of Measures
- 520.14 Risk to Life and Property

Subpart C – Dams

- 520.20 General
- 520.21 Definition and Classes
- 520.22 Design Criteria
- 520.23 Classification
- 520.24 Special Considerations
- 520.25 Clearing Reservoirs
- 520.26 External Reviews for Dam Safety
- 520.27 Emergency Action Plans – High Hazard Potential Dams

- 520.28 Potential Impact Area – Low Hazard Potential Dams of Inventory Size and All Significant Hazard Potential Dams

Part 521 – Reserved

Part 522 – Snow Survey and Water Supply Forecasting

- 522.0 Reservoir Operations Guides
- 522.1 Authority and Request for Assistance
- 522.2 Responsibility
- 522.3 NRCS Technical Review
- 522.4 Reservoir Operations Guide Review

Part 523 – Irrigation

- 523.0 General
- 523.1 Scope

Part 524 – Drainage

- 524.0 General
- 524.1 Scope

Part 529 – Reserved

Part 530 – Hydrology

Subpart A – Hydrologic Investigations

- 530.0 General
- 530.1 Available Hydrometeorological Information
- 530.2 Hydrometeorological Instrumentation
- 530.3 Hydrologic Reports

Subpart B – Hydrologic Procedures and Criteria

- 530.10 General
- 530.11 Hydrologic Procedures
- 530.12 Hydrologic Criteria

Part 531 – Geology

Subpart A – General

- 531.0 Purpose
- 531.1 Definitions
- 531.2 Organization
- 531.3 Responsibilities
- 531.4 Geologic Reports

Subpart B – Engineering Geology

- 531.20 Purpose
- 531.21 Intensity Levels of Geologic Investigations

531.22 Requirements for All Geologic Investigations

Part 532 – Reserved

Part 533 – Geotechnical Engineering

Subpart A – General

533.0 General

533.1 Responsibilities

Subpart B – Engineering Classification of Soils

533.10 Scope

533.11 Soil Classification Systems

Subpart C – Operations

533.20 General

533.21 Data Collection

533.22 Testing

533.23 Geotechnical Engineering Analyses

Part 535 – Landscape Architecture

535.0 General

535.1 Scope

535.2 Definitions

535.3 NRCS Technical Assistance for Landscape Architecture

Part 536 – Structural Engineering

536.0 General

536.1 – 536.9 Reserved

536.10 Method

536.11 Function

536.12 Loads

536.13 – 536.19 Reserved

536.20 Design Criteria for Reinforced Concrete Structures

536.21 Design Criteria for Reinforced Concrete Hydraulic and Environmental Structures

536.22 Design Criteria for Reinforced Concrete Slabs – On-Ground

536.23 Existing Designs for Reinforced Concrete Structures

536.24 – 536.29 Reserved

536.30 Design Criteria for Steel Structures

536.31 – 536.39 Reserved

536.40 Design Criteria for Wood Structures

536.41 – 536.49 Reserved

536.50 Design Criteria for Masonry Structures

- 536.51 – 536.59 Reserved
- 536.60 Design Criteria for Bridges
- 536.61 – 536.69 Reserved
- 536.70 Standard Designs
- 536.71 Use of Standard Designs
- 536.72 Standard Design Drawings
- 536.73 Adaptation of Standard Design Drawings
- 536.74 Revision of Standard Design Drawings
- 536.75 Availability of Standard Design Drawings to the Public
- 536.76 National Standard Detail Drawings
- 536.77 State Standard Detail Drawings
- 536.78 Standard Detail Drawings Prepared by Non-NRCS Engineers

Part 537 – Reserved

Part 540 – Field Surveys

- 540.0 General
- 540.1 Responsibility
- 540.2 Format
- 540.3 LiDAR Data
- 540.4 Precision and Accuracy
- 540.5 Staking
- 540.6 Contractor Surveys
- 540.7 Checking

Part 541 – Drafting and Drawings

- 541.0 General
- 541.1 Media
- 541.2 Sheet Size
- 541.3 Title Blocks
- 541.4 Cover Sheet
- 541.5 Orientation
- 541.6 Style and Content
- 541.7 Standard Title Block for ANSI A (8.5x11) Sheet
- 541.8 Standard Title Block for ANSI B (11x17) and ANSI D (22x34) Sheets
- 541.9 Standard ANSI A (8.5x11) Sheets
- 541.10 Standard ANSI D (22x34) and ANSI B (11x17) Sheets

Part 542 – Specifications

Subpart A – Construction Specifications

- 542.0 General

- 542.1 Scope
- 542.2 Preparation of Standard Specifications
- 542.3 Reference Specifications

Subpart B – Engineering Services Specifications

542.10 General

542.11 Technical Services

Subpart C – Exhibits

542.20 List of Reference Specifications

Part 543 – Materials

543.0 General

543.1 Scope

543.2 Use of New Materials

543.3 New Material Specification Preparation

Part 544 – Equipment

544.0 General

544.1 Radiation Use Permits

544.2 Transporting Equipment

544.3 Adjustment and Calibration

544.4 Maintenance

544.5 Storage

544.6 State Procedures

.
