

Exhibit 324.11 – Conservation Desktop Automation supporting review of Form CCC-902 Filing Requirement for NRCS Program Applicants and Participants

At this time, CCC-902 status is auto-populated from the FSA Business File into Conservation Desktop Application Agreements (CDAA)-managed agreements. Future development will create safeguards to warn against certain actions based on the returned status. Until that time, NRCS staff must still use caution and review the statuses returned in CDAA to ensure compliance with CCC-902 filing, determination, and status requirements for any contractual actions (obligations, modifications, and payments).

Once a CDAA agreement has been opened, staff can navigate to the Information/Eligibility section of the application or agreement and select the Client tab to see a list of clients. More information on each client can be shown using the carat next to each name. The middle column includes information that has been populated from FSA services, including the CCC-902 status, Conservation Compliance Farm/Tract, and adjusted gross income (AGI).

The screenshot shows a web interface with a 'REFRESH' button at the top left. Below it are three tabs: 'Client', 'Land', and 'Program', with 'Client' selected. Under the 'Clients:' heading, there is a dropdown menu for 'TROY'S ACTIVE CYCLING | Decision Maker: True | Business Type: Business | Client Eligibility Summary: Eligible | Phone Number:'. The main content area displays client details in two columns. The left column lists attributes: Address (redacted), Limited Resource Producer: Yes, Beginning Farmer/Rancher: No, Socially Disadvantaged: No, Veteran Farmer/Rancher: No, and Veteran Discharge Date: ---. The right column lists: Email: TROY.S.ACTIVE@usmail.com, AD-1026: Certified, Conservation Compliance In Compliance Farm/Tract, AGI Year: 2023, Adjusted Gross Income: Not Filed, CCC-902: Determined, AGI Eligible Entity Members 50.00, Payment Share (%), and Vendor Status: Active. A red circle highlights a carat icon on the left side of the client name, and a red box highlights the AGI-related information on the right.

If any of the FSA-provided data has changed since the agreement was obligated, there will be a generic alert in the first column of the Summary section found in both the Information/Eligibility section and the Manage Agreement & Items section.

Information/Eligibility

Summary:

State: Iowa

Service Center: ADEL SERVICE CENTER

County: Dallas

Application/Agreement Nbr: 916114231103

Fiscal Year: 2023

Status: Active

Sign-Up Number: 1

Sign-Up Date: 08/10/2023

Alerts: FSA data has changed. Please review eligibility.

Manage Agreement & Items

Summary:

State: Iowa

Service Center: ADEL SERVICE CENTER

County: Dallas

Actual Cost: \$5,245.00

Program Cap: \$4,816.00

Client Eligible: Yes

Payments In Process: ---

Alerts: FSA data has changed. Please review eligibility.

To ensure compliance with CCC-902 filing requirements, NRCS staff should review the client's eligibility information found on the Client tab and check for alerts before taking contractual actions.
